

System Proposal Outline

1. Table of Contents

2. Executive Summary

A summary of all the essential information in the proposal so a busy executive can read it quickly and decide what parts of the plan to read in more depth.

3. System Request

The revised system request form (see Chapter 2).

4. Workplan

The original workplan, revised after having completed the analysis phase (see Chapter 3)

7. Feasibility Analysis

A revised feasibility analysis, using the information from the analysis phase (see Chapter 2).

6. Requirements Definition

A list of the functional and nonfunctional business requirements for the system (this chapter).

8. Functional Model

An activity diagram and a set of use cases that illustrate the basic processes that the system needs to support (see Chapter 6).

9. Structural Models

A set of structural models for the to-be system (see Chapter 7). This may include structural models of the current as-is system that will be replaced.

10. Behavioral Model

A set of behavioral models for the to-be system (see Chapter 8). This may include behavioral models of the as-is system that will be replaced.

Appendices

These contain additional material relevant to the proposal, often used to support the recommended system. This might include results of a questionnaire survey or interviews, industry reports and statistics, and so on.
